CAN in Automation GmbH

CiA conformance testing order form

1 Brief information about CiA conformance testing

1.1 Scope of services

The CiA conformance testing is a testing service offered at CAN in Automation that guarantees that the tested device is conform to the CANopen CC application layer and communication profile (CiA 301). Detailed information about CiA conformance testing is provided on CiA website.

The test procedure itself is divided into the following parts:

- Test of the provided electronic data sheet (EDS) according to its conformance to CiA 306-1

- Test of the provided device according to its conformance to CiA 301 and according to the provided EDS.

1.2 Fees for device certification

Service	Fee non-CiA members	Fee CiA members
Basic rate per device test session (certificate included)	1000,- € (1190,- € incl. German VAT)	750,- € (892,50,- € incl. German VAT)
Basic rate per family test session (3 device test sessions and certificate included)	2000,- € (2380,- € incl. German VAT)	1500,- € (1785,- € incl. German VAT)
Rate per hour[a]	100,- € (119,- € including German VAT)	

[a] Additional tests and support after completed testing, in which the product failed to comply, will be charged separately.

2.3 Device information

Name ....

EDS ....

Vendor-ID ($1018_h - 01_h$) ....

3 Generic device features

Connector compatibility: **Status LED compatibility:**

☐ CiA 106   ☐ CiA 303-3

Node-ID assignment (e.g. software-, hardware switch, LSS, LMT, Node claiming):

....

Supported network management (NMT) functionality:

☐ pure NMT server functionality   ☐ NMT server and NMT manager functionality

Number of supported process data objects (PDOs)

…… # Receive PDO   …… # Transmit PDO

Number of supported service data objects (SDOs)

…… # Server SDO   …… # Client SDO

Supported error control functionality:

☐ Heartbeat   ☐ Node guarding

Supported CANopen CC device or application profiles (CiA profile numbers):

....

4 Order

By submitting this order form, I order the following services, which are offered by CAN in Automation:

☐ **CANopen CC device conformance testing**

☐ **CANopen CC family conformance testing**

I agree, that my successfully certified device is published on CiA's website.

Proposed date for the test session: _____-____-____
